Changes to make:

- How to create a grid inside a grid? I stopped adding in because I want to have the Styles section to look like this image below. Trying to figure it out.

Baladi: The main focus of this social dance is on the hips, with little use of arms. The typical costume covers the midriff and is most commonly a straight skirt with side slits and long sleeves. A sash and headscarf is often worn.
Rhythm: Masmoudi Zghire

- Style the bar chart. Maybe a map would be better?
- How do I center the images? I haven't been able to figure it out.
- Add the timeline.js
